THE COURSE

WHO SHOULD ATTEND?

Emergency Medicine providers including attending physicians, resident physicians, nurses and paramedics. If you've listened to the EM Cases Podcasts and want more great EM education through direct interaction with our EM Cases experts, this course is for you!

Even if you haven't heard the podcasts, this is your chance to talk face-to-face with Canada's brightest minds in Emergency Medicine about cases, questions, controversies, pearls, pitfalls, tips and tricks to make you a better Emergency provider.

No more sitting amongst hundreds of people listening to one didactic lecture after another! This is your chance to be engaged in your learning in small groups, and get CME credits while you're at it.

WHAT YOU GET

- ✓ Small-group case-based interactive discussions with EM Cases Podcast guest experts on key clinical topics that you choose such as stroke, cardiac arrest, orthopaedic pearls, pitfalls and more
- ✓ Live EM Cases podcast recording with surprise guest expert
- ✓ POCUS workshop with expert commentary and feedback
- ✓ Access to our FOAMed bar where you can learn tips and tricks on how to navigate Free Open Access Medical Education resources from the EM Cases Team
- ✓ CME credits
- ✓ Network with your colleagues and with the brightest minds in the Canadian EM landscape
- ✓ Scrumptious breakfast, lunch, snacks, cappuccino and tea
- ✓ Free prizes!
- ✓ Small group case-based hi fidelity simulation sessions and debriefs including airway, cardiac arrest with POCUS integration, undifferentiated shock, pediatric emergencies and more with EM Cases content and simulation experts

SCHEDULE

DAY 2: SIMULATION DAY

EM Cases Simulation is a brand new addition to the EM Cases Course. Hosted at the SimSinai Centre, the course is designed to give practicing physicians an opportunity to practice what they've heard in the main episode podcasts, read in the show notes and just the Nuggets emails and discussed at the EM Cases Course. The small groups allow for a hands-on practical experience in a variety of challenging emergency medicine scenarios with intimate, personalized debriefing by content and simulation experts. This is your opportunity to practice your management skills in cases that you might not see too often, but that require team-based rapid decision making to improve patient outcomes.

WHAT YOU GET

- ✓ Small group case-based simulation sessions and debriefs including airway, cardiac arrest with POCUS integration, undifferentiated shock, pediatric emergencies and more with EM Cases content and simulation experts
- ✓ Networking and working with colleagues in the Canadian EM landscape.
- ✓ Delicious breakfast, lunch, coffee and tea.

SCHEDULE

7:30

Registration & Continental Breakfast
